

NoName[®]

**The revolution
of the water
treatment**

Quality and innovation, a unique product in the world

It dissolves lime in all plants,
prevents the new formation, removes biofilm
favoring the elimination of Legionella and amoeba

It makes the water transparent, pleasant,
lighter and free of impurities

It complies with numerous legal obligations
solving the problems related to them

NoName®

**purifies and dissolves
limescale favoring
the elimination of
Legionella from the
water supply**

forever

NoName[®]

ALLY of water

PROFESSIONALS

Today's essential for:

Hotel  Food producers

Thermal power plants  Farms

Gym centers, swimming pools, communities  Cooling towers

Bars, restaurants, medical  Marine water systems centers

Laundries, hairdressers  Industrial facilities

Beauty salons, SPA  hospitals

Why NoName[®]?

It softens water with legal parameters

eliminates the risk of **legionnaire's disease**

useful for every **household** and **professional** use

It replaces the traditional water softeners and filters **eliminating their own limits**

It dissolves the **limescale** and removes the **biofilm** in the system

It guarantees **immediate** results

It solves the problems of each connected **water systems**

EASY TO INSTALL, EASY TO USE

NoName is a patented system that uses quality food gas, therefore it is **not harmful** nor **dangerous**

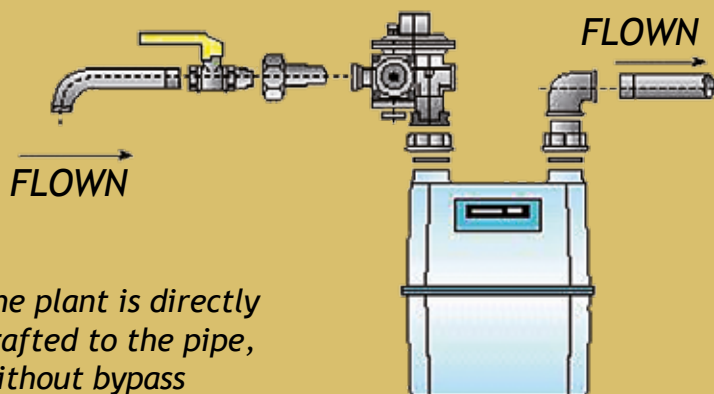

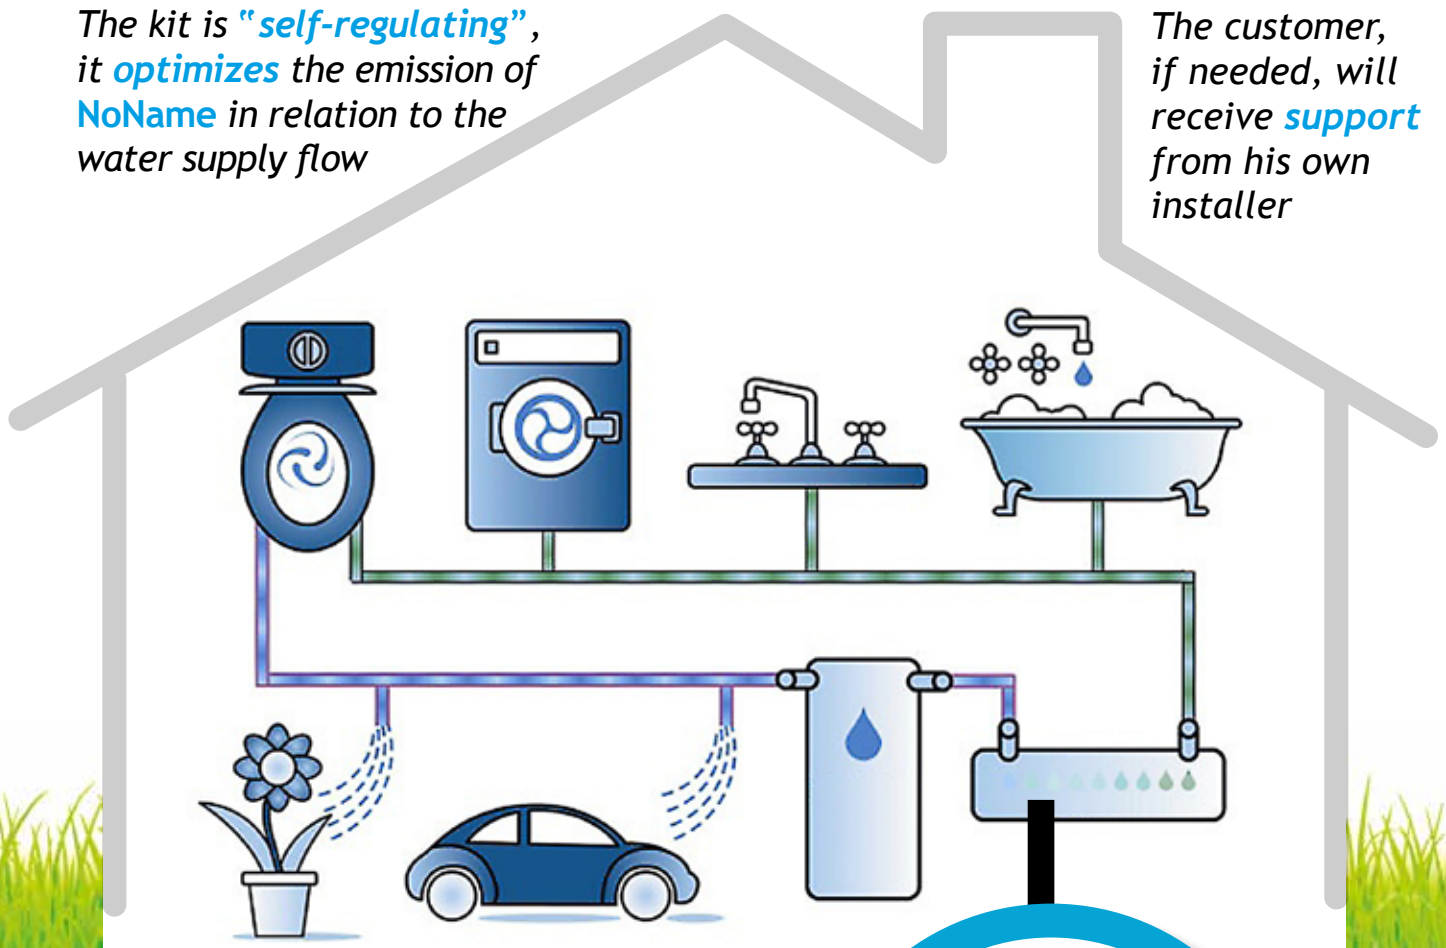

The kit has no mechanical parts, it requires no electricity or maintenance, so **it does not break down**

The installation kit can be placed **easily** and **quickly** even in small spaces inside or outside the building

Refills are **long lasting**, practical and **easy to install** and carry

The kit is **"self-regulating"**, it **optimizes** the emission of NoName in relation to the water supply flow

The customer, if needed, will receive **support** from his own installer

GREAT SAVINGS (WITH NoName®)

**By removing the limescale from
all the hydric system, you will save:**

-  **ELECTRICITY UP TO 30%**
-  **HEATING FUEL TO UP TO 20%**
-  **NO MAINTENANCE COSTS FOR THE REPLACEMENT OF FILTERS**
-  **NO COST TO PURCHASE AND REFILL THE SALT**
-  **EXTENDING THE LIFE OF THE WATER SYSTEM**
-  **ELIMINATING BIOFILM AND LEGIONELLA SAVES SANITATION COSTS**

Removing the existing limescale and preventing its forming avoids frequent maintenance and replacements not only of the pipes, but also of boilers, radiators, heater resistors, heat exchangers and all the connected equipments.

SAVING MAINTENANCE

Your pipe before and after

ENERGY SAVING

Your heater resistor before and after

**National Center for the
study of legionnaire's
disease of the Italian
Ministry of Health at
University of Catania**

The containment of legionella is necessary and it is a legal obligation. NONAME, by eliminating the biofilm "home / breeding ground" of Legionella and amoeba, is the true method for its prevention by making efficient disinfectants devices. This effectively solves the problem

SUPERIOR PERFORMANCE

Why is NoName better than the traditional water softeners and the water softeners resin?

NoName system

Traditional softener

- | | | |
|---|----------|--|
| NoName removes the limescale in the water and in the pipes | 1 | Softeners dissolve only the limescale in water |
| NoName remove biofilms of Legionella, amoeba and ferrous oxides | 2 | Softeners do not eliminate biofilms of Legionella, amoeba and ferrous oxides |
| NoName descales plumbing systems and heater resistances | 3 | Softeners does not descaling plumbing systems |
| NoName reduces electricity use | 4 | Softeners increase electricity consumption |
| NoName reduces fuel consumption | 5 | Softeners does not reduce fuel consumption |
| NoName does not require any water use for regeneration | 6 | Softeners consume 30% more of water for the regeneration filters |
| NoName does not consume salt or additives | 7 | Softeners consume salt for regeneration filters |
| NoName does not need maintenance | 8 | Softeners need expensive maintenance and use of storage materials |
| NoName does not use electricity | 9 | Softeners consume electricity and need connection to the electricity grid |

of legionella as tested by university laboratories of Catania.

The NONAME patent is according with Directive 98/83 EEC, does not alter the organoleptic conditions of water and realizing the desire of many users: they can comply with the requirements of organic method law.

Ministero della Salute

NoName®

A large iceberg floating in a deep blue ocean under a clear blue sky. The tip of the iceberg is visible above the water line, while the vast, jagged, and textured underside is submerged, illustrating the concept of hidden potential or a 'tip of the iceberg'.
